

## Sponsor Care Packages for Children, Youth, and Families

Engage with your colleagues in a fun, hands-on group volunteering opportunity and team-builder to make a meaningful impact to Asian and new immigrant children, youth, and families.

### Make an impact

Giftng care packages will support our participants in taking steps towards brighter futures including:

- Children growing healthy and learning new things
- Youth preparing for their first year of college
- Immigrant adults gaining English language skills for employment
- Immigrant parents preparing for their first child

**Corporate partners are asked to purchase items, assemble care packages, and deliver the care packages to BCNC. The opportunity is structured as follows:**

#### Step 1

- Partner commits to becoming a Care Package Sponsor and decides on which project
- BCNC shares specific instructions with Partner including the order list and how the packages should be packed

#### Step 2

- Partner orders the supplies and have them delivered to their company's office.
- Partner sets a date for the group packing day
- Partner recruits volunteers
- BCNC coordinates a delivery day and time with the Partner

#### Step 3 – Packing Day

- Partner hosts the packing project in a common room/space at their company
- The volunteers pack and assemble the items into care packages
- The volunteers write notes to be included in each care package

*Optional: a member of BCNC presents (either in-person or virtually) about BCNC and gives an overview of who the care packages will serve.*

#### Step 4 – Delivery

- Partner delivers the fully assembled care packages to BCNC's office
- BCNC takes photo with Partner and care packages and shares photos with Partner and on BCNC communications
